

A high speed roll door that is easily affordable

The SERIES RL3000

For internal or external openings, up to 6mH x 6mW, with many options available, for customising to your application

Rapid Auto Roll Doors by DMF International

Since 1967, DMF International has been creating only the best door systems for all Australian and overseas markets. And the Series RL3000 group of roll doors continues this great tradition

THE ENERGY EFFICIENT SERIES RL3000 RAPID AUTO ROLL DOOR

And now, there is a range of RL3000 doors to suit your requirement and budget. Select from either the RL3000 or the RL3000B, and be impressed with features which will bring you benefits to your particular application. Both models are built in a modular componentry design, so simple, it can be supplied in a well defined kit form. And the features...
